EDUCATION

Technocrats Institute of Technology & Science

Bachelor of Technology in Computer Science (AI & ML) — CGPA: 7.85/10.0

Bhopal, India

Nov 2022 – Aug 2026

TECHNICAL SKILLS

Languages: Java (Core), JavaScript, Python (Basic), SQL

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3, Bootstrap, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, Socket.IO, Authentication (JWT, OAuth)

Database: MongoDB, MySQL, Database Design, NoSQL

Tools & Technologies: Git, GitHub, Netlify, Postman, VS Code, npm, Docker (basic)

Computer Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOPs), DBMS

EXPERIENCE

Full Stack Developer Intern

Mar 2025 – Jun 2025

Wipro SkillHigh Program

Bhopal, India

- Architected and deployed 3 production-ready full-stack applications serving 500+ users with 99.9% uptime
- Delivered secure E-Voting System with end-to-end encryption, JWT authentication, and real-time results visualization using React, Node.js, and MongoDB, reducing vote processing time by 85%
- Engineered Student Attendance System with role-based access control, dynamic report generation, and RESTful APIs, improving attendance tracking efficiency by 70% for 200+ students
- Created SEO-optimized personal portfolio with Markdown CMS, achieving 95+ Lighthouse score and 40% faster page load times through code splitting and lazy loading

PROJECTS

Event Management System | *Node.js, Express.js, MongoDB, REST APIs*

Live

- Architected scalable backend system handling 200+ venue bookings with role-based access control for users and admins
- Implemented streamlined booking workflows, email notifications, and payment tracking, reducing manual processing time by 60%
- Structured database schema with MongoDB for efficient venue management, booking tracking, and approval workflows

Digital Healthcare Management System | *React.js, Node.js, Express.js, MongoDB*

Live

- Built comprehensive healthcare platform with separate doctor and patient portals, managing 500+ medical records and prescriptions
- Crafted responsive UI with React.js, Tailwind CSS, and React Router, achieving 100% mobile responsiveness and intuitive UX
- Developed secure backend APIs for diagnosis tracking, prescription generation, report management, and patient history with HIPAA-compliant data handling

AI Invoice Generator | *React.js, OpenAI API, Node.js, PDF Generation*

Live

- Produced intelligent invoice automation platform leveraging OpenAI API to generate professional invoices from minimal input, reducing invoice creation time by 90% for 300+ users
- Designed responsive React.js frontend with customizable templates, multi-currency support, and real-time preview, achieving 100% mobile responsiveness across all devices
- Established secure backend with Node.js for AI integration, PDF generation, and email delivery, processing 1000+ invoices with 99% accuracy
- Deployed on Netlify with CI/CD pipeline, optimizing load times to under 2 seconds and implementing data encryption for secure financial document handling

ACHIEVEMENTS & CERTIFICATIONS

Wipro SkillHigh Certification: Full Stack Web Development (March 2025 - May 2025)

Problem Solving: Solved 500+ problems on LeetCode and GFG focusing on DSA optimization

Professional Course Completion: Java, DSA MERN Full-Stack Web Development – RICR — Feb 2026
